There is on exhibition at the cotton exchange a fine sample of the Petrie plant. It is the product of a section of country on the gulf coast, south of Vera Criz. Mexico. It has a fibre seven and a half feet long, and is capable of being utilized in a thousand different ways. It was first discovered and brought into notice by our fellow-townsman, Colonel L. W. O'Bannon, who has succeeded it, organizing a company with a capital of seven hundred thousand dollars, who have already purchased lands on which it grows, and made arrangements to bring it into the markets of this country. It is very durable, has great strength, and is the equal of being for rope, bagging and other useful articles of commerce.

## AFTER THE BATTLE.

I'w Timely Thoughts and Sugges ons After the Great Victory—The Talten and Blocks of the South—Their True

Enfrois APPEAL—The election of yesterday was a great triumph for the southern people, white and black. I say white and black, for so it is, and defines clearly where the line in our future elections should be drawn; not between the white people of the south on the one side, and the negroes of the south and northern men among us on the other. Such a line is as unwise as it is untrue in principle. For lot demagogues, time-Such a line is as an wise as it is untrue in principle. For let demagogues, time-servers and criugers for office say and do what they will; and however true it is that such false issue has been rande, and to a certain extent hastily, between the races for political—yes, I may say, lare political—purposes inaugurated, yet the true, the natural relation between the route, the natural relation between the southern white man and the nerro is outhern white man and the negro is that of friendship; their interests are identical; their interests are insepara-ble, and their action should be harmo-nious. Yet, through the advice and specious arguments of that class of northern men whom we cannot characterize higher in grade than the orders terize higher in grade than the ordear of a retiring army, they have been entranged from each other, even to a point of hitterness bordering on hatred. This is all wrong; it is unmatural; if is unwise for both. Yesterday was the first practical evidence that we have had that the negroes of Memphis now see this, and yesterday hundreds of them gave the hearty shake of triend-ship's ham; to their southern, real friends, and side by side with them voted for the true interests of this county. Well may we hall these facts as the re-then held them together were melting away, with a fidelity which in history must ever stand a towering monumen to their honor. They did protect these helpless ones. These and the associations of childhood are not easily effaced from men's hearts and memories. They will not soon fade. Can these motives VAULT CLEANING—The new Cooriess Extended in the Control of the most of friendship ever exist between the negroes and these men of the north? Never. There is no real friendship on the part of these northern men for the negroes. It is false, simulated that they may use them for political purposes and mothern men for the negroes. It is false, simulated that they may use them for political purposes and mother men for the negroes. -The alarm of fire sounded a little after twelve o'clock last night was occasioned by the burning of a lot of straw and rubbish in the rear portion of building No. 237 Second street, Jefferson block. It was evidently the work of an incendiary, as it was also set fire under a stairway. But two of the stores in this block are occupied, and the others, or at least two of them, have been cousness, and causes them to hang their very heads for shame. Exultation over an enemy fallen is cowardice. Exultation over the vindication of correct principles is patriotism. Let us rejoice over our political occess, at the same time extend to the ignorant, uneducated and misinformed the sympathy due a fallen antagonist. The sun of prosperity is arising, and ere long its rays will cause a revivification of our shattered fortunes; a universal
